

Rapporteurs' Presentation

*Thematic Discussion 2: Sustainable Consumption
and Production Monitoring Practices*

1. Outcomes

Why is monitoring important? – measuring progress

- Observations:
 - Differing systems of data collection
 - Lack of statistical capacity
 - Fragmentation of data
 - Inaccessible data
- Best practices/recommendations:
 - Close collaboration with statistical bureau
 - Statistic division in each country
 - Database
- Tools needed:
 - Efficient statistical tools/systems
