## Academic Speed Dating

For the duration of the Conference, participants will be provided Interactive Badges. During the Academic Speed Dating, these badges will enable the participants to meet each other based on common interests. Each matching interest will be colour coded. For example, if participant A has the same interest (i.e. on university-business cooperation and fund raising) as participant B, their badges will emit a sound and light in the same colour for a period of time. The matches will be based on the information provided by the participants on this survey.

For queries, please contact Onno Bos ([onno@badge2match.com](mailto:onno@badge2match.com)).
