Vice President attended the Fourth Central Committee Meeting for Data Accuracy and Quality of Statistics
SDG Integration:
Evidence and Principle-based Approach
The MSDP is structured around 3 Pillars, 5 Goals, 28 Strategies and 238 Action Plans. All are firmly aligned with the SDGs, the 12 Point Economic Policy of the Union of Myanmar, and various regional commitments.

Goal 1: Peace, National Reconciliation, Security & Good Governance

Goal 2: Economic Stability & Strengthened Macroeconomic Management

Goal 3: Job Creation & Private Sector Led Growth

Goal 4: Human Resources & Social Development for a 21st Century Society

Goal 5: Natural Resources & the Environment for National Prosperity
What we have done so far regarding SDGs?

1) **Capacity development**: Awareness raising about the SDGs. About 700 of the Government officials at both national and sub-national level have been trained on the SDGs. (Organizing Workshop for 3 times)

2) **Statistical readiness**: Ministry of Planning and Finance assessed Myanmar’s data availability for the measurement of the SDG indicators.

3) **Reporting**: Myanmar’s first SDG Data Assessment report in 2016 and SDGs Baseline Data Report is published.

4) **Partnership**: SDG will be one of the important themes for the next cooperation activities among Gov., Private Sector and DPs through Development Assistance Coordination Unit.
Development of Myanmar SDG Indicators

Opportunities for linkages with other goals

10 Clusters for Implementation of National Statistical Development Strategy

- National Account Statistics
- Survey Coordination and Statistical Standard
- Vital Statistics
- Agriculture and Rural Sector Statistics
- Energy Statistics

- Demography Cluster

Thematic Specific Areas

- Child
- Youth
- Women
- Aged
- Disabled
- Poverty
- Food Security
- Health
- Education
- Energy
- Environment
- Social Protection….
What’s need to be done?

➢ Accurate and reliable statistics is the lifeblood of the plan.
➢ Quality of facts and figures is crucial for compilation of reliable statistics....
➢ Reengineering of statistical organizations and coordination mechanism is a must for all countries including Myanmar”
➢ Professionalism
➢ For the policy guidance and as a Coordination mechanism, Data Accuracy and Quality of Statistics Committee is formed.
➢ Strengthening and promoting the Role of CSO
➢ Vertical as well as Horizontal Coordination and cooperation
➢ To be compatible and in line with the country’s reform process
Ongoing Activities

• Continuing meetings for thematic areas of SDGs such as children, vulnerable groups, environment, education private sector, multistakeholders participatory on Implementation, Monitoring and Evaluation processes, etc.

• Developing policy recommendations to utilized as inputs for action plans and implementation processes of SDGs in Myanmar.

• Issuing Guidelines on SDGs Indicators Methodology

• Close collaborations with line ministries, development partners and international organizations in respective development projects for the country
Looking forward closer cooperation to achieve SDGs in 2030!

Cooperation Intention
