Benchmarking on Sustainable Consumption and Production Practices

• What are the ongoing initiatives that focus on SCP?
• What kind of strategy for implementation of sustainable consumption and production can work
A global framework adopted by Heads of State at Rio+20 for a international cooperation to shift towards sustainable consumption and production (SCP) patterns in developed and developing countries.

“The major cause of the continued deterioration of the global environment are the unsustainable patterns of consumption and production...”

“Encourage and promote the development of a 10-year framework of programmes (10YFP) ..to.. shift towards SCP patterns....” (JPOI, 2002)
