(Cinet)- On December 9, at the Forum on “Vietnam’s Creative industries strategy – following steps and challenges”, Vietnam’s cultural policy profile was announced in the international database of Cultural Policies (World CP).

The database is to provide capacity to monitor and analyse global trends in key aspects of cultural policies.

At the forum, the Ministry of Culture, Sports and Tourism also took the occasion to debut the UNESCO and British Council-funded draft strategy on the country’s innovative industry that touches on culture-related issues like infrastructure, modern technologies and development guidelines.

The final document will be submitted to the Asia-Europe Culture Ministers’ Meeting in the Netherlands next year.

According to Deputy Minister of Culture, Sports and Tourism Ho Anh Tuan, Vietnam has worked out the cultural development draft until 2020 with a vision up to 2030.

Korsten Wemecke, Deputy Executive Director of the Asia-Europe Foundation (ASEF), said that the event as a platform to devise a sound legal framework for innovative industry under the public-private model.

Delegates shared the view that the industry will give a boost to sustainable economic growth and bring into full play national cultural identity.

They put forward a roadmap for the industry as well as establishing a national committee and an international consultancy group.
