Internet chatter
Going beyond
Human Rights:
OVER MATTERS

Dr. Eliza White

Dr. Eliza White is a prominent
journalist and human rights
dissident who has been
actively campaigning for
international recognition
of the right to privacy and
freedom of speech. Her
work has been instrumental
in exposing human rights
abuses and advocating
for increased transparency
and accountability in
the digital age.

In her latest book, "Internet
Chatter: Going beyond
Human Rights," Dr. White
explores the complex
intersection of technology,
privacy, and human rights,
highlighting the need for
a comprehensive approach
to protecting individuals
from online harm while
upholding the principles
of freedom of expression
and the right to privacy.

Dr. White argues that
the current legal frameworks
are insufficient to address
the challenges posed by
the digital age and
recommend a range of
measures to enhance
online safety and
promote responsible
stewardship of
communications technology.

At the core of her
arguments is the need
for a global consensus
on the principles of
internet governance,
considering the unique
challenges posed by the
online environment.

Through her investigative
reporting and advocacy,
Dr. White continues to
push for a new era of
internet regulation
that respects both
human rights and
technological
innovation.
